

MAKE. CREATE. INNOVATE.

---

## POSITION SUMMARY

---

As the CNC Operator, you will be our ideal candidate if you are able to read and analyze blueprints, read G-Code, machine plastics and steel, communicate material and/or program needs, and execute quality control. Of particular value to us is your ability to focus on collaborating with supervisors, management, and other team members to achieve company goals and KPI's. As a CNC Operator, your actions will directly impact manufacturing and therefore the success of our team and the company.

---

## WHAT YOU WOULD DO:

---

- Balance excellent safe working habits with a healthy sense of urgency.
- Set-up and Operate various CNC machines
- Determine tooling, tool-paths, setup methods and fixtures to produce parts in most efficient manner
- Execute work orders relative to the scheduled due dates set by our scheduling department.
- Embrace collaboration; accept suggestions, and a mentality of continual improvement.
- Organize the production area's workflow. Ensure resources are effectively utilized.
- Be accountable for final product quality.
- Lead by example. Safety in production begins with you.
- Maintain a clean and organized work space.
- Perform other duties as assigned.

---

## WHAT YOU ARE REQUIRED TO OFFER:

---

- Minimum of 2 years' experience required
- Fluency in Mastercam Software a requirement
- Ability to show initiative and manage your time as part of a high-functioning team
- Excellent English language communication skills; both written and verbal
- Willingness to work a Mon-Thursday 2:00 p.m.-12:30 a.m. 4 days per week

---

## YOUR BENEFITS:

---

- Competitive compensation and profit sharing
- Excellent benefits package
- Substantial vacation time
- Training and development opportunities
- Supportive culture
- Healthy and positive work environment
